“Certainly, travel is more than the seeing of sights; it is a change that goes on, deep and permanent, in the ideas of living.” -- Miriam Beard

Why does a person travel? Some travel to explore new sights, some to make connections, and some to simply get away for a recharge.

The Kansas Health Care Association and the Kansas Center for Assisted Living would like to invite you to travel with us as we embark upon this year’s journey—October 22 through October 24, 2014. This is no ordinary trip, mind you...this journey is all about Quality Care. As you progress throughout this, our 64th Annual Convention and Trade Show, you will make many worthwhile stops along the way. There will be new and exciting sights to discover, connections to make and restore, and above all, a chance to recalibrate and recharge in a world that’s constantly evolving.

When deciding a theme for our 64th Annual Convention and Trade Show, the KHCA/KCAL education committee decided on “Passport to Quality”. This encompasses everything that surrounds what we strive to give in our industry—Quality Care. We know you will enjoy this convention, but even more so, we hope you are able to recharge, reconnect, and rediscover what it is that makes our industry such a vital and important piece of society’s fabric: YOU. It is our goal for every single person in attendance to take something away with them when they go—a comprehensive idea of what goes into the best of Quality Care, and what they, as individuals, contribute to the Quality Care our residents deserve.

This year’s convention is bigger and better than ever, and we are privileged to have each and every one of you with us. Welcome Travelers, and don’t forget to have your Passports stamped.

All Aboard!!

Navigating the Journey of Good Dementia Care Without Drugs

Wednesday, October 22, 2014  2:00—5:00 PM  (1:00 PM Registration)

**THIS IS AN EXTRA TICKET EVENT, WHICH OFFERS 3.5 CEU’S IN THE AREA OF RESIDENT CARE**

Have you met Linda Farrar? She is passionate about Dementia care. From understanding the individual and reaching them “at heart level” to providing care and services that bring purpose and joy to their lives, she is committed to helping caregivers get it right. Join Linda as she guides us through several different ways to make a difference in the lives of our elders.

Eden Alternative
Facilitated by: Michelle Gambrel

Music arouses feelings and emotions in a unique way. Unlike language, music touches our soul, connecting us with memories and events from our past. For each of us, music is personal. Music helps us remember, lessens anxiety, eases pain, increases endorphin levels, affects heart beat and blood pressure, and can generate a sense of safety and well-being. Let’s take a musical journey together and discover how music touches YOUR SOUL!!!

Dementia Without Drugs
Facilitated by: Linda Farrar

Caring for those elders living with dementia can be challenging and rewarding at the same time. As caregivers, we strive to provide the best care and meet the needs of the individual, but sometimes we need guidance and resources to assist us. In this segment, you will learn about The Eden Alternative and how their teachings and principles can help you become a more successful caregiver to those living with dementia as well as those living without it. You will also learn about how becoming a part of the Eden Alternative family and joining the Eden Registry can help you and your organization become recognized and more successful professionally as well as financially.

Aroma Therapy: Multiple studies have demonstrated a significant impact of aroma therapy for enhancing positive behaviors in patients with dementia, with negligible side-effects. In this session we will learn about the extensive number of aromas that can be used to assist elders with dementia to achieve moments of pleasure.

Therapeutic Touch: Touch is considered a core aspect of care provision and therapeutic relationships. Therapeutic touch allows nursing staff to facilitate healing and to build therapeutic relationships through touch or non-touch and maintain channels of communication often lost in dementia as the disease progresses.

Music Is Magical
A Place Where Soul Meets Soul
Facilitated by: Laura Richardson

Good dementia care is about reaching each elder at the heart level. Learn from the experts how to integrate behavioral interventions into excellent dementia care including music therapy, aroma therapy, therapeutic touch, art therapy and person-centered care.
Quality care for those dealing with Alzheimer’s disease and related dementias begins with family members and professional caregivers who are sensitive, patient and kind. How can people be empathic when they have never experienced first-hand the physical and mental challenges facing those with dementia? Now, there is a way.

The Virtual Dementia Tour® — a scientifically proven method of building a greater understanding of dementia through the use of patented sensory tools and instruction — is your window into their world.

Created by P.K. Beville, M.S., an award-winning geriatric specialist and founder of Second Wind Dreams®, each edition of the Virtual Dementia Tour VDT®) sensitivity training program comes with detailed instructions and patented devices that enable participants to gain a greater understanding of dementia.

In 2013, Second Wind Dreams received in excess of 314 million impressions in media markets throughout the world. Positive recognition has come from a variety of news outlets. The program and creator have been profiled by BBC, ABC News “NIGHTLINE”, the CBS Evening News, NBC’s “Three Wishes with Amy Grant”, HLN’s “Raising America” with Kyra Phillips, Canadian Broadcasting Company’s “The Nature of Things” hosted by David Suzuki and The Today Show.

SWD has also been profiled in industry publications such as Assisted Living Today, Retirement Communities Executive, McKnight’s Long Term Care News as well as the American Journal of Alzheimer’s Disease and Other Dementias, Care ADVantage magazine and Culture of Health.
Five million Americans suffer from Alzheimer's disease and dementia -- many of them alone in nursing homes. A man with a simple idea discovers that songs embedded deep in memory can ease pain and awaken these fading minds. Joy and life are resuscitated, and our cultural fears over aging are confronted. Alive Inside: A Story of Music & Memory reveals a remarkable, music-based breakthrough that has already transformed lives. Spearheaded by social worker Dan Cohen and captured on camera over the course of three years by filmmaker Michael Rossato-Bennett, we learn that songs from a patient’s past can awaken memories and emotions that have been asleep for years, sometimes decades. Countless instances in Alive Inside provide proof that music stimulates activity in dementia-affected parts of the brain and transforms the quality of life of those often left to languish in silence.

A CALL TO ACTION!!!

BRING YOUR OLD OR UNUSED IPODS TO CONVENTION AND DROP THEM IN THE BOX AT THE REGISTRATION TABLE. WE WILL SEND THEM TO THE MUSC & MEMORY PROGRAM!

As smartphones become the norm, many people may find they have an old iPod (or five) lying around their homes. This year, the nonprofit organization Music & Memory is urging people to clean out their drawers and donate old iPods to a good cause: Bringing the joy of music to elderly people in nursing homes. The organization will accept donations of both new and used devices, iTunes gift cards, iPods, iPod Touches or old iPhones. The only criteria is that the equipment must still be working. (And if you’ve lost the charger, it’s not a problem!)

We are thrilled to be able to bring this very special screening opportunity to you during our 64th Annual Convention and Trade Show. You will not want to miss this uplifting and inspirational experience!
Morning Plenary Sessions
Thursday, 8:00AM—8:50AM (7:00AM Registration)

SNF TRACK—Long Term Care TrendTracker (LTCTT)
Instructor: Peggy Connorton
It’s here! The brand new Long Term Care TrendTracker (LTCTT) is up and running, and KHCA will be the first State Association to learn how to use it. Join AHCA’s Peggy Connorton, LNHA, for a demonstration of the most powerful tool available to long term care communities committed to affecting change and moving the needle on quality measures and outcomes.

KCAL TRACK—HCBS Final Rule
Instructor: Joe Ewert
Assisted Living and Residential Care facilities who care for elders under the HCBS Waiver Program will want to join KDADs Commissioner Joe Ewert for an update on the state’s plan for implementation of HCBS Final Rule. From settings requirements to timelines on implementing changes, Commissioner Ewert will share what the agency knows at this point and what questions are still unanswered.

CLINICAL TRACK—Documentation
Instructors: Linda Farrar and Terry Pearce
This program explains WHY documentation is important, WHAT information is required when documenting the clinical record, and HOW particular issues affect documentation. This program will also cover helpful “Do’s and Don’ts” of documentation.

2:15 Breakout Sessions, Continued
Thursday, 2:15PM—3:30PM

ADMINISTRATIVE TRACK—FMLA
Instructor: Susan Lang
This program will familiarize you with the world of FMLA—who is eligible, how to document requests, typical violations found, and timing of notices and documents, as well as information on many other details.

CLINICAL TRACK—Wounds Part I: F314, MDS Sect M
Instructor: Pamela Scarborough
Content for this program will include information from the F314 component of the State Operations Manual used to guide surveyors in their survey process for pressure ulcer prevention and quality of care. In addition the program will cover the MDS M-Section with information from the RAI necessary for reporting. And lastly, this session will discuss the National Pressure Ulcer Prevention and Treatment content and how to use this national guideline, the F314 and the MDS 3.0 M-Section to frame your pressure ulcer prevention and treatment programs. All content is to assist in ensuring your pressure ulcer prevention and care program meets current standards of care and will stand up to regulatory scrutiny.

KCAL TRACK—NCAL Update
Instructor: Dave Kyllö
KCAL Members are in for a treat this year as Dave Kyllö, Executive Director of the National Center for Assisted Living returns to Kansas. So many issues on the national level have the potential of changing how Kansas homes do business. Join us for this very important update.

ALL—Dementia, Part I
Instructor: Linda Farrar
We will address the barriers Kansas facilities are facing during the attempt to meet and surpass the AHCA Quality Measure of improving dementia care including the reduction of the off-label use of antipsychotics for dementia care. Some of the barriers include physician resistance to the initiative; family resistance to the reduction/elimination of medications; difficulties in convincing nursing staff related to the benefits of medication reductions; barriers to appropriate staff training in excellent dementia care.

3:45 Breakout Sessions
Thursday, 3:45PM—5:00PM

ALL—Dementia, Part II
Instructor: Linda Farrar
As we reconvene following the 2:15 session, we will continue to address the barriers Kansas facilities are facing during the attempt to meet and surpass the AHCA Quality Measure of improving dementia care including the reduction of the off-label use of antipsychotics for dementia care.
**Administrative Track—Fair Labor Standards Act**
Instructor: Susan Lang
This program is all about what you need to know about the Fair Labor Standards Act! Topics covered will be: Proper timekeeping, payment of overtime, salaried exemptions and who qualifies, shift differentials and on call pay, as well as many other details.

**Clinical Track—Wounds, Part II:**
F314, MDS Section M
Instructor: Pamela Scarborough
As we reconvene following the 2:15 session, we will continue to explore information from the F314 component of the State Operations Manual. All content is to assist in ensuring your pressure ulcer prevention and care program meets current standards of care and will stand up to regulatory scrutiny.

**KCAL Track—Gracious Dining**
Instructors: Linda Kamerer and Chef Kodi
Gracious Dining—Let’s Eat! Service expectations are changing in the senior living environment. This session will focus on the area of dining services...achieving Gracious Dining. What is it; Why have it and How do you get there? We will review research as well as look at Senior Living Communities who have made changes. An interactive Chef’s demonstration will allow you to taste and see the ease of incorporating key components to create a successful dish. You will learn how to evaluate where you are now and how to get where you want to be to provide Gracious Dining for your current and future consumers.

**KCAL Breakfast**
OPEN TO: AL, Resident Care, and Home Plus Providers
Dave Kyllo—Ethical Marketing
Because of the diversity of assisted living residents, the services offered, and the complexities of the fees charged, it is critical for providers to present their customers with complete, concise, and candid information about their residences. Join NCAL Director Dave Kyllo for this breakfast pick me up on ethical marketing and uniform disclosures.

**NAC Meeting & Breakfast**
OPEN TO: All Nurses
- Business Meeting
- Announcement of 2014 Joan Hamel Scholarship Recipients
- Hear from past Joan Hamel Scholarship Recipients
Judy Bagby—Compassion Fatigue
We get into healthcare to help others and make a difference. Working in long-term care we find ourselves establishing emotional relationships with residents and their significant others. With the culture change movement we are encouraged to build relationships and honor resident choices. Compassion is a helpful emotion for those working in the nursing home setting and helps to give satisfaction to our jobs. Compassion fatigue is the risk to our caring for others in emotional and physical pain. Join us for discussion on what we need to care for ourselves and our co-workers to avoid “running on empty” when caring for those dependent on us.

**General Session Breakfast**
OPEN TO: Everyone
Carol Sapp—Taking Care of Ourselves—Nutrition in the Workplace
The program will discuss what to eat and drink to improve our health and keep us feeling good throughout the day. Participants will learn how to select “healthy” carbohydrates, proteins and fats in the diet. The session will address popular diets and weight loss trends, the impact of sugar, food allergies and sensitivities, “superfoods”, the role of stress, and healthy snacking tips. Participants will discuss how we can promote a supportive nutrition environment in the workplace.

**Independent Owners Breakfast**
OPEN TO: Independent Owners and their staff
Jason Stroiman & Jeremy Stroiman—The Value of Your Seniors Housing Business
This presentation will help attendees not only uncover value in their current operations, but educate all parties on the risks and market fluctuations associated with rises in interest rates. Our presentation will target seniors housing owners and operators across all asset types.
