.....
Agenda and learning objectives:

Line by line coding instructions for new and revised sections. This will include:

- Discussion of clinical and payment ramifications as noted in the draft RAI manual
- Explanation of which item sets contain the new/ revised information
- Discussion of ramifications of the deletion of most of the Section G items with explanation of which items from G are now in GG
- Considerations for new/changed data collection from CNA and nursing staff to support new requirements
- Discuss operational implications of adding social determinants of health to some item sets
- Understand CMS priorities for the 2022–2032 Framework for Health Equity as it relates to data collection on the MDS and other clinical considerations
- Understand what is meant by “indication for use” in the new section “High-Risk Drug Classes”
- Review the greatly expanded Part A PPS Discharge and implications for the SNF-QRP program with many more required data elements to avoid the 2% APU penalty
- Any breaking news about state case-mix from the Medicaid agency if available
