Assisted Living Lunch and Learn: A Deeper Look at FCS/NSA and HSP

The Functional Capacity Screen (FCS). Who knew such a simple looking document could be so complicated? During this lunch and learn you'll learn how to accurately complete a Functional Capacity Screen (FCS). Together you'll collaborate and work through common 'gray areas' and how to document them. Once you've tackled the Functional Capacity Screen (FCS), the Negotiated Service Agreement (NSA) and Health Services Plan (HSP) are next! A completed FCS will be provided to all participants and Joan Hudson, RN-BC, LNHA will walk you through how to take the data from the FCS, add your resident 'wants' to the assessment and produce a Negotiated Service Agreement (NSA) to capture all the billable services for your resident.

Joan will also address situations for Negotiated Risk Agreements, NSA Addendums and ideas for completing them. Once the FCS and NSA are done we'll use the information to create our Health Services Plan (HSP) that describes to our direct caregivers how to provide the services we've negotiated for our residents.

This workshop is a great opportunity for Operators and Nurses to work through this process as a team. It's also a chance for you to make sure you're on the same page and meeting the requirements as set out by KDADS.

Learning Objectives for the lunch and learn sessions are:

- 1) Review the regulations for FCS/NSA/HSP and how to stay in compliance with each.
- 2) Complete an FCS/NSA/HSP for a sample resident
- 3) Review scenarios and how to handle situations that indicate the need for a
