

Getting Together

Meetings that Work

Join us for a 4-week webinar series running from November to December 2023, focusing on skill-building for successful and productive team meetings.

This series covers standards and content of effective and efficient facility meetings including: Daily clinical/stand up, UR/Medicare, Triple Check, Falls, Weight Loss/Nutrition at Risk, QAPI, Skin/PU, Behavior and includes monitoring tools, video examples and policy templates.

NOVEMBER 29 - Daily Clinical and QAPI Meetings Mastery

Join us in this engaging 60-minute session as we delve into the art of conducting effective and efficient daily clinical meetings and Quality Assurance and Performance Improvement (QAPI) meetings. These meetings are the backbone of nursing home quality improvement, and this session is designed to equip you with the skills needed to make them both productive and impactful.

DECEMBER 6 - UR/Medicare & Triple Check Meetings

This session will focus on strategies to establish a robust Medicare and Triple Check Meeting process with critical insights that providers cannot afford to overlook. Learn strategies for skilled medical necessity, compliance, and reimbursement success with considerations for specific interdisciplinary roles, daily processes, and pre-billing meeting procedures.

DECEMBER 13 - Meetings that Go More Than Skin Deep

This session will focus on the specifics for efficient and productive team meetings that assist the Skin/Wound Management and Nutrition at Risk committees to identify the “Root Cause” of these conditions and the interventions necessary to prevent and treat/manage them.

DECEMBER 20 - Falls and Behavioral Health Meetings

This session will focus on the specifics for efficient and productive team meetings that assist the Fall Management and Behavioral Health committees to identify the “Root Cause” for falls and resident behaviors.
