

Welcome to the World of Dietary!

LTC Refresher Course

Dietary department need a refresh? Sharpen your dietary knowledge and establish effective dietary department systems when you join Proactive for this virtual workshop. This 4-hour training will review team building, food service regulations, documentation requirements, IDT collaboration, preventing common deficiencies and much more! Co-presented by a dual Registered Dietitian and Nursing Home Administrator and a nurse/legal nurse consultant, your team will gain insights into the dietitian role, effective dietary systems and recommended QA oversight and management duties of the facility administrator! Don't miss this unique opportunity to elevate the quality of your dietary department.
